There was evidence that some of the statements made as to the place where the child was to be taken were untrue, but he did not think that was the kind of falsehood or fraud that the statute contemplated." The jury returned a verdict of not guilty, and the prisoner was discharged, but the judge told her reorganise his old regiments, and he somes to that the verdict did not give her any more right to the child. The law on this subject is the same here as in England. Slavery is an | nel, and all the munitions are to be supplied by evil to be coped with by everyavailable means, especially that vile form of it known as brothel clavery, and persons engaged in kidnapping deserve the severest punishment. It is, however, a very different thing where a parent, under pressure of poverty, or for other reasons, openly makes over his child to be adopted by another person, and such case to criminally prosecute person adopting would be a grave mistake. Such a transaction conveys with

it no legal right to the custody of the child, and the person adopting it is therefore dependent on the good faith of the paclaim the child and enforce their claim by proceedings on a writ of habeas corpus. The G. Caldwell (cox.) Angier, (cox.). Sampson (cox.) custom amongst the Chinese of making over children in this way unquestionably gives opportunity for grave abuses, but it is difficult to conceive of any law that could be devised to entirely put a stop to the practice. To attempt to do so would most probably result in inextricable confusion and the creation of new difficulties. All that can be done is to represe as firmly as possible such offences as kidnapping and the detention of women or girls for immoral purposes, and to | Nagari (30 tous) (present holder of the Bongias cause it to be as widely known as possible amongst the Chinese that no payment of money can give them any right to a child Ariel (14 tons) Mr. H.
